THE "BLACK HAWK MANURE SPREADER

Is simple in construction, and easy to operate. The wide spread attachment enables the farmer to spread a width of 71 feet. This spreader is easy to load because it is low-down.

Anyone who is in the market for a spreader cannot afford to lose the opportunity of examining the "Black Hawk" before placing his order elsewhere.

PHOSPHATE----Will Drill All Kinds WHEAT---Accuracy in Quantity TIMOTHY----Perfect in Distribution EASY to Operate

The Only Sulky Plow With Combination Jointer

You can turn all kinds of weeds or filth.

The combined rolling Coulter and Jointer turns over the surface of the ground so that when the plow turns over the furrow, the slice plowed with the Jointer rolls down in the bottom of the furrow, filling in the open spaces that are always left by the plow.

This makes the finishing of the preparation of the seed bed a comparatively easy matter.
